### \*Iwata High Performance HP.CP

Capable of a Hairline to a 1" fan pattern

This airbrush is a .3mm which comes in Iwata Box packing with foam insert to ensure no damage can be done to your investment.

Also included is a .07 fluid ounce of superlube for lubricating your needle after cleaning and a nozzle spanner for nozzle removal.

Renowned as the professional's workhorse, this popular High Performance Series brush has been pumped up with inspired new features that include dual-purpose, cutaway and pre-set handle for easy clean up and precise control of paint flow; PTFE needle packing for automotive or other solvent-based paints; larger threads on the nozzle that offer a more secure fit and better centering of the nozzle; redesigned tapered gravity-feed cups that ensure easy clean up and more efficient paint flow; and a single-piece auxiliary lever/needle-chucking guide that provides easy assembly.

\*A practical choice for most airbrush uses

\*Its larger 1/3 oz. (9 ml) gravity-feed cup and larger (0.3-mm) needle/nozzle configuration allow for use with most media

- \*An airbrush that does it all – from fine hairlines to finely atomized background spray, along with an entire range of stippling effects
- \*The gravity-feed cup is useful for mixing custom colours and allows for quick color changes
- \*Short paint passageway from the cup to the front of the airbrush gives it a responsive feel and allows it to be one of the quickest airbrushes in the industry
